During stream

- ☐ Moderate chat (timeouts, bots, vibe)
- ☐ Answer repeat questions
- ☐ Flag important messages to streamer
- ☐ Mark clip timestamps in shared doc
- ☐ Watch bitrate / dropped frames
- ☐ Run chat commands when asked

End of stream

- ☐ Send clip timestamp list to editor
- ☐ Thank raiders / hosts
- ☐ Confirm recording saved to shared folder
- ☐ Quick debrief with streamer

Before first public stream

- ☐ Mic sounds clean (no clipping, no room echo)
- ☐ Webcam framed and lit (or voice-only decision made)
- ☐ Backdrop looks clean on camera
- ☐ OBS scenes switch without crashing
- ☐ Internet upload stable (5+ Mbps min, 10+ better)
- ☐ Water nearby
- ☐ Stream title set
- ☐ Discord link works
- ☐ Tell 3 people when you're going live
- ☐ Manager and/or editor know their roles for tonight

First 4 stream ideas (pick one)

- ☐ "Wake the storm" - lightning.js tweaks + chat votes on params

- ☐ "Pack a mind" - build consciousness JSON on export.html, scan on phone
- ☐ "Dream my body" - import Rift sample, run body dreamer, explain BOM
- ☐ "SEED on mobile" - genesis QR flow, document mobile gotchas

Weekly habits (once live)

- ☐ Stream on schedule (hold 3 slots for 30 days before changing)
- ☐ Clip 1-2 moments per stream
- ☐ Post best clip within 24h
- ☐ Upload raw recording for editor same night
- ☐ Send editor timestamps
- ☐ Raid 1-2 channels after stream
- ☐ Track metrics (streams, hours, avg CCV, followers, Discord joins)
